UQ EXCELLENCE IN TEACHING AWARD WINNER

“The University of Queensland is one of the best universities in the world when it comes to teaching and research. There’s an enormous amount of diversity and breadth in courses, events, and research areas. At the same time, there’s a great deal of depth, so you’re provided with many opportunities to work right alongside international experts in their field.

The aim of my research is to understand the best way to turn novices into experts in visual domains such as radiology, forensics, dermatology, and pathology. The content and format of my courses are directly informed by my research, in terms of providing the latest data from experiments from my laboratory and recent findings and phenomena in the field.”

Jason Tangen
Associate Professor

Why choose The University of Queensland for your psychology degree?

Innovators

UQ’s School of Psychology is a key leader and innovator in the delivery of courses and learning experiences. Our courses offer students the opportunities to learn and engage in many ways through both face-to-face and online mediums, through workshops and tutorials, through learning by doing. We provide courses that will both entice and challenge you in your way of thinking.

Strong research culture

Push the boundaries of knowledge and develop high level skills in communication, research design, critical and analytical thinking and project management when you complete an honours level research project in your final year. You will have the opportunity to undertake paid summer or winter research programs, as well as having access to our research centres for Organisational Psychology, Social Psychology, Communication, Early Childhood Cognitive Development, Parenting and Family Support, Perception and Cognitive Neuroscience.

Honours

The Bachelor of Psychological Science (Honours) provides all students with an honours class upon graduation. In their final year and depending on grade point average (GPA), students complete either an individual or group thesis, supervised by one of the School’s leading academics and researchers.
